

WORKSHOP OVERVIEW

C-me Team Profile Workshop Overview

Turn individual insight into how your team **actually works**, together.

01 Who is this **workshop** for?

For teams who have already completed the C-me Foundation Workshop and are ready to move from individual self-awareness to team-level behaviour change. Built around this team's own Team Profile report, the workshop gives the team a shared, honest way to talk about trust, pressure, meetings, decisions, conflict, and where to grow next.

02 What are the **benefits** of this workshop?

01 Turn a report the team has already read into behaviour the team actually practises

02 Build a shared, honest language for how the team really works, not just how it's supposed to

03 Give every colour preference an equal, structured voice in the conversation

04 Surface and work through friction points that might usually be left unsaid

05 Locate where the team sits in its development, and agree what to focus on next

06 Leave with clear, written commitments the team can be held to

03 Additional **workshops** available...

● Foundation Workshop

● Communication and Conflict

● Change Management

● Team Cohesion

● Leadership Development

● Influencing with Impact
